

Are You Prepared For Tomorrow's Phishing Attacks Today?

A Self-Learning Email Security Platform to Stop Tomorrow's Phishing Attacks Today

Phishing threats are constantly morphing at scale. Enterprises face the greatest dangers from unknown and non-signature-based email attacks that frequently slip through secure email gateways (SEGs): 70% of companies report being a victim to advanced phishing attacks.

IRONSCALES is a comprehensive, people-powered email security platform. Our self-learning platform helps where your email security is most vulnerable with post-delivery protection, detection, and remediation. Now you can defend against the full spectrum of phishing threats when and where they are most likely to cause damage, at the mailbox level.

PLATFORM FEATURES

Our platform helps you fight all sorts of known and unknown attacks such as malware, ransomware, credential/ID theft, business email compromise, brand forgery, polymorphic and zero-day attacks.

The platform works in real-time, all the time...

- Automatically scan malicious URL's and attachments on ALL inbound emails
- Detect all types of email threats, even impersonation, and non-signature based BEC attacks
- Automatically render verdicts on suspicious emails and respond without full mailbox scans
- Leverage thousands of analyst inputs at any moment, based on what's happening now
- Automatically claw back and cluster bad emails at scale – instantly
- Interactively train each employee to think and act like a security pro, based on how they work

Advanced Malware/URL Protection

Identify, flag and respond to malware and URL threats at scale

Mailbox-Level BEC Protection

Make smarter and faster decisions regarding suspicious emails already in users' mailboxes

AI-Powered Incident Response

Reduce manual email analysis and response by orders of magnitude (up to 90%)

Democratized Real-Time Threat Detection

Crowdsource the best threat analysis and detection from the world's leading SOC's

Virtual Security Analyst

Get AI-powered machine learning to help humans do more with automated threat remediation

Gamified, Personalized Simulation & Training

Access customized micro-learning to help employees think and act like security analysts

COME GET THE POWER OF NOW

Our advanced email threat protection platform sets up alongside your existing systems and architecture in minutes for even global email environments. You get rapid and simple solutions to see and stop phishing attacks of all types, right now.

The Power of Now begins with a live demo and a free 30-day trial.
We will put our platform up against any other solution in the marketplace.

ABOUT IRONSCALES

IRONSCALES is the future of phishing protection, incubated inside the world's top venture program for cybersecurity and founded by alumni of the Israel Defense Forces' elite Intelligence Technology unit. We offer security professionals and end users an AI-driven, self-learning email security platform that provides a comprehensive solution to stop tomorrow's phishing attacks today. Using the world's most decentralized threat protection network, our platform accelerates the prevention, detection and remediation of phishing attacks already inside your email with threat removal times in seconds, not minutes or hours. We give organizations of all sizes complete anti-phishing protection against any type of phishing attack, right now. Visit www.ironcales.com to learn more about **The Power of Now**.
